Latest on COVID-19

Moving in the Right Direction

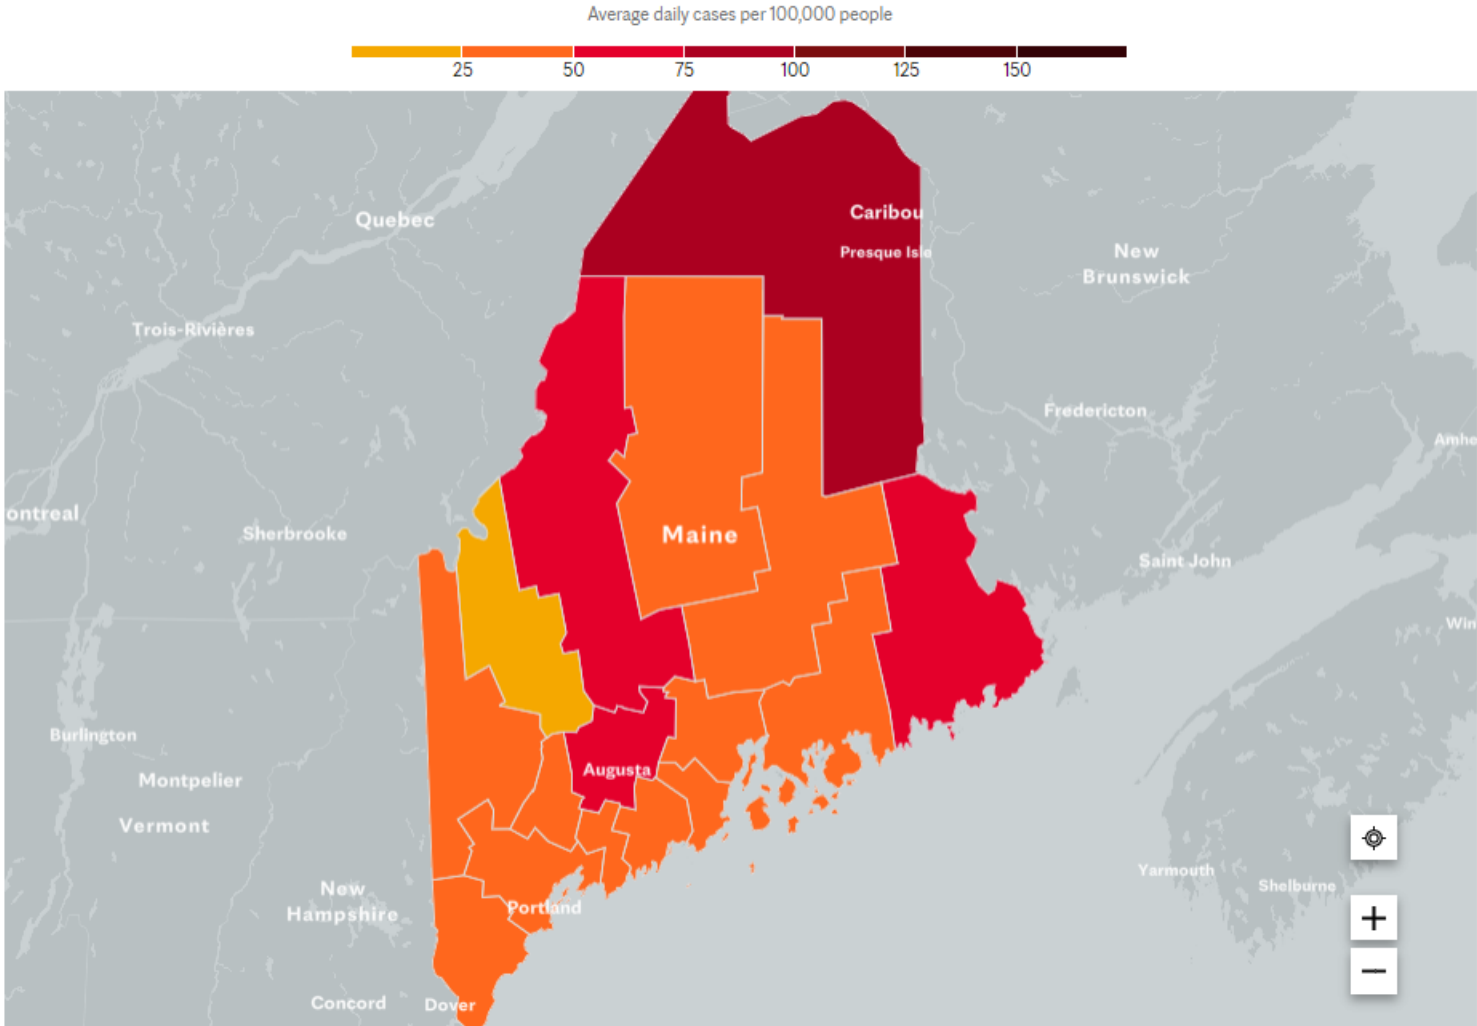

U.S. COVID-19 Community Levels by County Map

Maps, charts, and data provided by CDC, updates every Thursday by 8 pm ET

Updated: March 10, 2022

But Not Out of the Woods Yet

Defining your community as low, medium, or high

COVID-19 by County | CDC

Low

- Indicates the virus is having a limited effect on the healthcare system
- Low levels of severe disease

Medium

- More people with severe disease
- Beginning to see an increase in how much COVID-19 is affecting their healthcare system
- People who may be at increased risk talk to their healthcare providers about taking additional precautions, such as mask-wearing

High

- High level of severe disease
- High potential for a community's healthcare system to become strained
- Everyone wear a mask indoors and in schools
- In addition to the precautions at the low and medium levels

New CDC mask update – based on your community level COVID-19

Low

- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms

Medium

- If you are at high risk for severe illness, talk to your healthcare provider about whether you need to wear a mask and take other precautions
- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms

High

- Wear a mask indoors in public
- Stay up to date with COVID-19 vaccines
- Get tested if you have symptoms
- Additional precautions may be needed for people at high risk for severe illness

More Evidence that Universal Masking Works

MANDATORY MASKING IN SCHOOLS REDUCED COVID-19 CASES DURING DELTA SURGE
NIH-funded study compared more than 1.1 million students across nine states

Took place during Delta Surge

Schools in North Carolina, Wisconsin, Missouri, California, Washington, Georgia, Tennessee, Kansas and Texas

Schools with mandatory masking had ~72% fewer cases of in-school transmission of COVID-19 when compared to schools with optional or partial masking policies

Most cases of COVID-19 infection for either group occurred through community spread

Easy access to schedule your vaccine, booster, or Flu shot

Public Vaccination

COVID-19 Vaccination and Booster Eligibility Updates

Booster dose appointments for Pfizer, Moderna, and Johnson & Johnson COVID-19 vaccines are now available for people 18 and over who meet criteria.

People 5 years or older are currently eligible to schedule a COVID-19 vaccination.

Important:

- Community members under age 18 who would like to be vaccinated, must have a parent or guardian complete and initial the online scheduling form on their behalf.
- In addition to scheduling a vaccine using the online process, patients under 18 are required to bring a completed consent to treat forms signed by their parent or guardian to their appointment.
- Patients under the age of 16 must be accompanied by a parent or guardian to their vaccination.
- If you have any questions please call: **207-204-8551***

**Long distance or carrier fees may apply.*

Scheduling your vaccination:

- If you cannot find an appointment that works for you at a Northern Light Health location, please visit the [state COVID-19 vaccination sites list](#).
- Please print your appointment confirmation and bring it with you. Vaccination candidates will receive an email confirming their vaccination location
