Su'aalo

Goobaab Mid

1. Miyaal lagaa helay Covid- 19 14 kii bari ee ugu danbeeyey? HAA MAYA
2. Miyaad ka qaadatay tallaal meel kale 14 kii cisho ee ugu danbeeyey? HAA MAYA
3. Miyaad qaadatay dhiigga qof ka bogsaday COVID-19 90kii bari ee ugu danbeeyey? HAA MAYA
4. Miyaad horey ku yeelatay xasaasiyad tallaal Covid- 19 ama qayb uun ka mid ah Covid- 19? HAA MAYA

5. Miyaad ku leedahay xasaasiyad tallaal noocu doonaba ha ahaadee? HAA MAYA
Tallaalada Covid- 19 ee Pfizer iyo Moderna ma laha laastiigga Latex, Ukun iyo kiimikada cuntada lagu kaydiyo.
6. Miyaad horey aad ugu jirratay tallaal Covid- 19? HAA MAYA
Xanuun caadi ah oo tallalka Covid- 19 lagal kulmi karo waxa ka mid ah waxyaalahan soo socda. Waxa laga yaabaa in ay xanuunadani sii darnaadaan tallalka labaad ka dib:
- | | |
|----------------|--|
| I. Lafa xanuun | V. Madax Xanuun |
| II. Daal | VI. Murqo xanuun |
| III. Qandho | VII. Lalabbo |
| IV. Qarqaryo | VIII. Meesha lagaa tallalay oo ku xanunta kuna casaata |
7. Miyaad uur leedahay HAA MAYA

Uur baan leeyahay ama naas baan nuujinaya ee ma is tallali karaa? Haa, laakiin waxa lagugula taliniyaa inaad war bixin dheeraad ah hesho oo ku saabsan tijaabooyinkii lagu sameeyey tallaladan intii aan la oggolaan iyo wixii khatar ah ee ka iman kara.

- Tallaalka Pfizer/BioNTech iyo Moderna midna laguma tijaabin dad uur leh ama doonaya inay uur yeesaan, sidaa darteed Ururka Caafimaadka Haweenku wuxuu ku talinayaan in dhakhtarkaaga aad kala tashato faa'iiddada iyo dhibka ka iman kara tallalka.
- Iyadoo ay dadka qaar tallalka qaatayi uur yeesheen, laakiin warbixin ku filan lama hayo oo go'aan lagu gaadhi karo.
- Iyadoo tallalka mRNA isticmaalkeedu cusub yahay, mRNA-da ku jirta tallalka durba waxaa burburiya unugyada jidhka mana galayo bu'da unugga. Inta ilaa hadda la ogyahay, waxay khubaradu aaminsan yihii in tallalka mRNA ay u badan tahay inayna wax u dhimayn uurrayda iyo ilmaha. Si kastaba ha ahaatee, lama oga in tallalka mRNA uu khatar ku keeni karo uurrayda iyo in kale sababtoo ah diraasad ku filan laguma samayn dad uur leh.
- Tallaal oo dhan wuxuu keeni karaa difaaca jirka oo kaca taasoo keeni karta qandho. Qandhadu waxay dhib ku keeni kartaa ilmaha uurka ku jira, walow khatartani ay yartahay dhibaatada uurreyda tallalka kaga timaaddaana ay caadiyan yartahay.
- Dhibaatada ka iman karta xanuunka Covid- 19 awgeed, dadka la siinayao tallalka mRNA, sida shaqaalahaa caafimaadka, waa in tallalka loo soo bandhigo dadka uurka leh ama laga yaabo inay uur yeesaan gaar ahaan meelaha uu cudurku bulshada ku dhex faafayo.
- Hooyooyinka nuujinaya laguma darin diraasada caafimaad. ACOG waxay ku talinayaan in dhibka kaga imaan kara hooyooyinka nuujinaya uu mar walba ka yar yahay faa'iiddada tallalka ay ka heli karaan. Dadka qaadanaya tallalka Covid- 19 looma baahna inay joojiyan naas- nuujinta.

Waan fahamsanahay khatarta iyo faa'iiddada hooyada uurka leh kaga iman karta tallalka Covid-19, waxanan aqbalayaa in la i siyo tallalka.

_____ Saxeex (laba xaraf)

HADDII AY TAHAY HAA:

Haa, tallalka COVID- 19 waad qaadan kartaa. Haddii aad leedahay difaac hoos u dhacsan, waxa laga yaabaa in tallalku sidii la rabay uuna wax kuugu tarin laakiin ayna keenin wax cillad ah oo kale.
Fadlan ogsoonow in dadka difaacoodu hoos u dhacsan yahay aan lagu darin cilmi baaristan, waxaan ka ahayn dad yar oo qaba HIV.
